## Summary

Currently working in Farfetch which is a leading global platform in the luxury fashion online market, under Agile culture using C# (.NET Core), Apache Cassandra, Apache Kafka, Elastic Search, Jenkins and other tools to improve quality of deliverables.

Also working part-time remotely for The Bridge Social, for Grace Kennedy client, the biggest Financial and Food group in Jamaica and Caribbean area. Developing digital wallet and remittance projects.

Previously worked on a bank, for an year and a half. During this period, participated on two teams (PIX and B2B) developing the PIX (Brazilian Instant Payments system), also developing APIs and Open Banking integrations, direct contact with clients B2B, regulatory agencies, other banks and technical teams to provide the best solution for both sides! Using .NET Core, SQL Server, RabbitMQ supported by DDD architecture, SOLID, DRY & KISS principles.

I am excited to contribute my strengths and proficiency in innovation toward your team efforts. As an extroverted and personable communicator with a proven track record in technical writing, my focus on building strong professional relationships has been a valuable asset throughout my career.

Software engineer, well experienced with C#, working with financial services, e-commerce, integrations, web and desktop solutions.

Check out some projects I worked on:

- Integration with Western Union for remittance across countries.
- Digital wallet (payments, transfers, remittance, balance, statement, mobile top-up, credit card).
- PIX - Brazilian Instantly Payments System (SPI/PIX - BACEN).
- Microservices using gRPC for communication intra-process.
